Frontend WordPress Designer / Developer

Description

Excel Nearshore is seeking a **Frontend WordPress Designer / Developer** to support a short-term website refresh project for a U.S.-based company in the medical device design and manufacturing industry. This role will focus on translating pre-defined design mockups and new visual assets into a polished, user-friendly, and responsive website experience.

You will work closely with internal stakeholders to ensure the visual design is implemented accurately, maintaining strong UI/UX standards while ensuring consistency across pages. This is a hands-on role ideal for someone with strong design sensibility and front-end development experience in WordPress environments. This is a fully remote opportunity based in Costa Rica, with an expected duration of 8–10 weeks.

Responsibilities

- Translate design mockups into responsive, high-quality web pages within WordPress
- Ensure strong visual consistency, layout accuracy, and UI/UX best practices
- Optimize front-end performance, accessibility, and responsiveness across devices
- Collaborate with stakeholders to validate design implementation and iterate as needed
- Work closely with backend developers to ensure seamless integration of component.
- Apply SEO-friendly markup and best practices in collaboration with backend development.

Qualifications

- Experience in front-end development with WordPress
- Strong UI/UX design sensibility and attention to visual detail
- Proficiency in HTML, CSS, JavaScript, and responsive design principles
- Experience working from design mockups (Figma, Adobe XD, or similar)
- Understanding of cross-browser compatibility and performance optimization
- Ability to work in fast-paced, short-term project environments
