Oracle PL/SQL Developer (.NET & Azure)

Description

Excel Nearshore is seeking a highly skilled **Oracle PL/SQL Developer** with experience in **Oracle Financials**, and exposure to **.NET technologies** and **Microsoft Azure**. The ideal candidate will play a key role in designing, developing, and optimizing database solutions that support enterprise financial applications and business-critical processes.

This role requires strong expertise in Oracle database development, performance tuning, and financial systems, along with the ability to collaborate effectively with cross-functional teams in a dynamic environment.

This is a fully remote and full-time position from Costa Rica, in payroll with benefits.

Responsibilities

- Design, develop, enhance, and maintain complex Oracle SQL and PL/SQL solutions.
- Develop and optimize SQL queries, stored procedures, packages, functions, and triggers to support application functionality and improve performance.
- Perform database performance tuning, troubleshooting, query optimization, and root cause analysis.
- Analyze business requirements and translate them into scalable technical solutions.
- Support and maintain Oracle Financial processes including:
 - General Ledger (GL)
 - Accounts Receivable (AR)
 - Accounts Payable (AP)
- Collaborate with development teams supporting .NET applications and Azure-based cloud solutions.
- Develop and support data integrations, reporting solutions, ETL processes, and batch jobs.
- Participate in code reviews, unit testing, debugging, deployment, and production support activities.
- Ensure compliance with coding standards, security policies, and industry best practices.
- Work closely with business stakeholders, functional analysts, and technical teams to deliver high-quality solutions.
- Provide ongoing support for production environments and contribute to continuous improvement initiatives.

Qualifications

- 5+ years of hands-on experience in Oracle Database Development.
- Strong expertise in Oracle SQL, Oracle PL/SQL, Query Optimization and Performance Tuning.
- Extensive experience developing and maintaining Stored Procedures, Packages, Functions and Triggers.
